

Dear Customer,

Please see the attached assembly instructions for the flat pack cabinets. These are a universal set of instructions.

***N.B. - Our wall cabinets come with solid backs and therefore do not have hanging brackets they are just fixed to the wall directly with wall fixings (supplied by the customer) be sure to read the instructions carefully and also note that if you are using TALL CABINETS for integrated fridges or for fridge housing then the back panel should be left off. For ovens see the instructions.***

We hope you are satisfied with the products supplied and delivered.

Yours Sincerely,

**Ben Brown**
